

ChannelBoost Inc.

Corporate Travel & Expense Reimbursement Policy

Document Owner: Finance Department | Effective Date: January 1, 2026 | Version: 3.2

1. Purpose & Scope

This policy governs all business travel booked, approved, and expensed by ChannelBoost employees, contractors, and approved vendors traveling on the company's behalf. It applies to both domestic (within the United States) and international travel and covers airfare, lodging, meals, ground transportation, and incidental expenses.

2. Trip Approval

All travel must be pre-approved by the employee's direct manager (or, for department heads, by the relevant VP) before any bookings are made. Approval must be recorded in the Travel Request system prior to booking. Travel booked without prior approval will not be reimbursed except in documented emergency circumstances.

3. Per-Diem & Reimbursement Limits

Reimbursement limits differ for domestic and international travel, reflecting differences in the cost of living at typical destinations. The following caps apply per employee, per day, unless a documented exception has been approved in advance by the traveler's manager and Finance:

Expense Category	Domestic Travel (USA)	International Travel
Hotel / Lodging (per night)	\$200.00	\$280.00
Meals (per day, all meals combined)	\$65.00	\$85.00
Ground Transportation (per day)	Actual, reasonable cost	Actual, reasonable cost
Airfare	Lowest reasonable economy fare	Lowest reasonable economy/premium economy fare

Hotel and meal expenses that exceed these caps on any given day are considered **non-compliant** and will not be automatically reimbursed. Employees seeking reimbursement above the cap must attach a written justification and obtain secondary approval from their manager and Finance before submission; without such approval, any amount above the cap is a policy violation and may be deducted from the reimbursement or the employee's next payroll cycle.

4. Receipt Requirements

Employees must retain and submit an itemized receipt for **any single expense over \$25.00**, regardless of expense category or whether the amount is within the per-diem cap. Expense line items over \$25.00 submitted without a corresponding receipt are treated as policy violations and are subject to rejection or clawback during quarterly expense audits. Expenses of \$25.00 or less may be submitted without a receipt using a good-faith estimate.

5. International Travel Reimbursement

In addition to the standard per-diem limits in Section 3, international travelers are subject to the following additional rules:

- Airfare for international travel must be booked at least 14 days in advance where possible; last-minute international airfare requires VP-level approval.
- Currency conversion is calculated using the exchange rate in effect on the date the expense was incurred, as sourced from the corporate card issuer's statement.
- Visa fees, mandatory travel insurance, and vaccination costs required for the destination country are fully reimbursable in addition to the per-diem caps and are not counted against the meal or hotel limits.
- International trips longer than 10 consecutive days require a mid-trip check-in approval from the traveler's manager to continue accruing reimbursable per-diem.

6. Non-Reimbursable Expenses

The following are never reimbursable regardless of amount: personal entertainment, in-room movies and minibar charges, traffic and parking fines, spa services, upgrades to first/business class without prior VP approval, and travel for a spouse, partner, or family member unless explicitly approved as part of a relocation package.

7. Expense Submission & Audit

All travel expenses must be submitted within 14 calendar days of trip completion. Finance performs a monthly compliance audit of all submitted travel expenses, cross-referencing submitted amounts against the per-diem caps in Section 3 and the receipt requirement in Section 4. Employees found with repeated violations (more than two in a rolling 6-month period) will be required to complete a policy refresher and may lose corporate card privileges for future trips.

8. Policy Violations Summary

An expense line item is considered a **Travel Policy violation** if any of the following is true:

- A domestic hotel charge exceeds \$200.00/night without pre-approved exception.
- An international hotel charge exceeds \$280.00/night without pre-approved exception.
- Domestic meal spend on a given day exceeds \$65.00 without pre-approved exception.
- International meal spend on a given day exceeds \$85.00 without pre-approved exception.

- Any single expense over \$25.00 is submitted without an itemized receipt.
- Travel occurred without a prior approved Travel Request.
